

WESTON GARDEN CLUB PROVISIONALS
14 MAPLE ROAD
WESTON, MA 02193

The Weston Garden Club Provisionals is an adjunct to the larger Weston Garden Club. Our purpose is to stimulate the knowledge and love of gardening, horticulture, and allied creative activities; to promote civic beauty; and to conserve natural resources.

The Provisionals are interested in giving financial support to Weston non-profit organizations for community service projects or activities which would benefit from Garden Club funding. We anticipate that we will be able to support several grants of one hundred to five hundred dollars each.

Possible projects range from long-term activities such as recycling in the schools to shorter term, more discrete projects such as creation of a small garden in a public area or improvement of existing plantings in town. In each case proposals will be evaluated primarily in terms of their potential horticultural or environmental contribution to the community of Weston.

Proposals should give a description of your project or activity, including its objectives, approach, scope, time frame and, if applicable, its location. The potential value of your project to the town should be clearly stated. Please include a budget with your proposal, showing total monies needed and the amount of the grant requested from our organization.

Please submit proposals to our chairman of the civic committee by May 30, 1997. Grants will be awarded no later than July 1, 1997. All organizations who submit grants will be notified of our decisions.

Thank you for your interest.
Sincerely,

Jennifer C. Peterson
Civic Chairman
